

## ELAN Installation

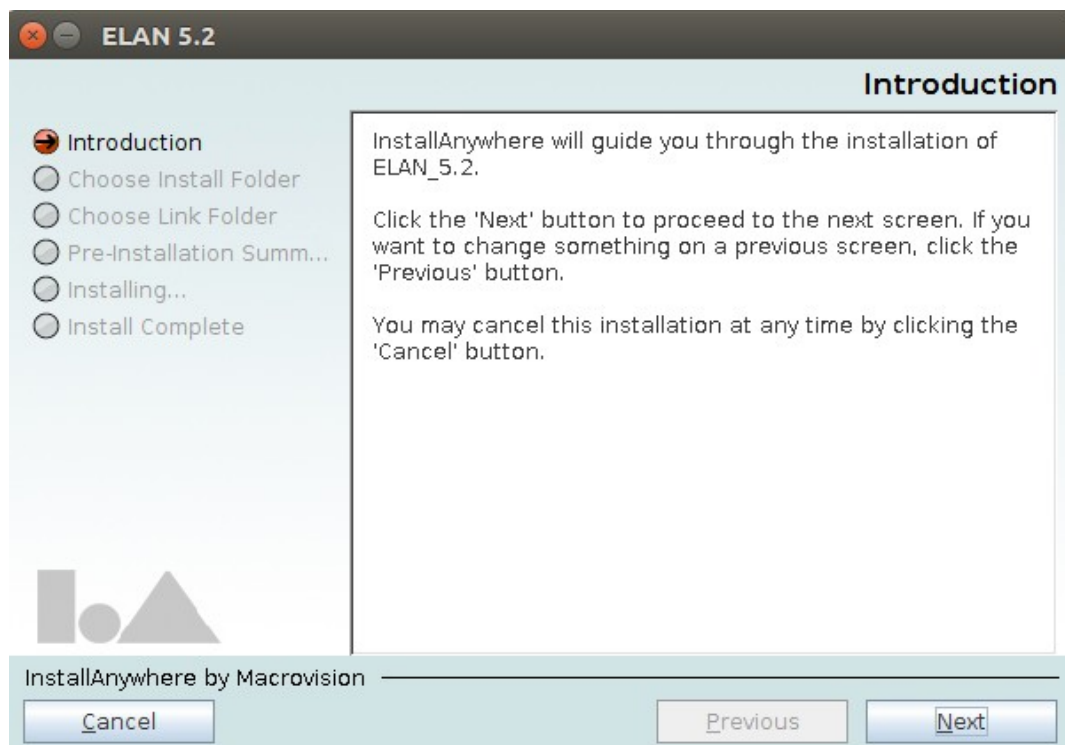

ပထမဆုံး ELAN\_5-2\_linux.bin ဖိုင်ကို သမီးစက်ရဲ့ တစ်နေရာရာကို copy ကူးထားလိုက်ပါ  
ဥပမာ home အောက်မှာ ELAN\_5-2\_linux.bin ရှိတယ် ဆိုပါစို့

1. open your terminal and run following commands

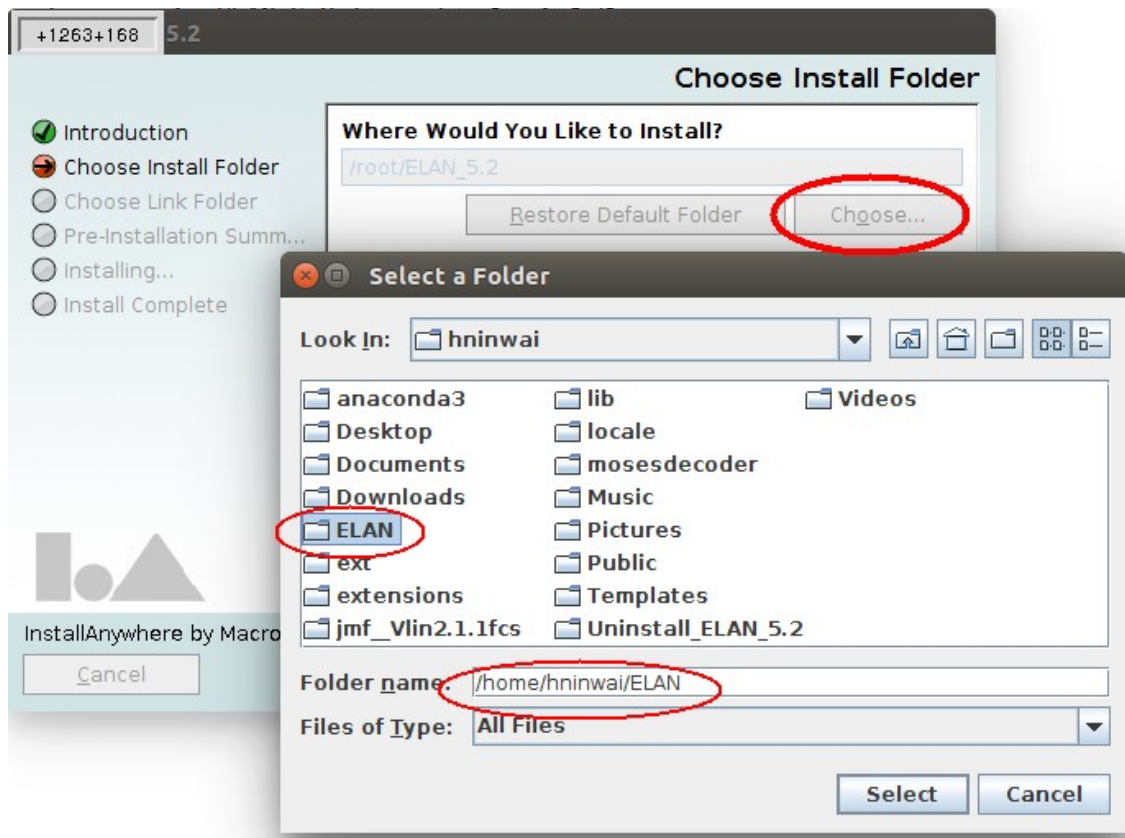

```
chmod 755 ELAN_5-2_linux.bin  
sudo ./ELAN_5-2_linux.bin
```

```
[sudo] password for hninwai: type your password  
Preparing to install...  
Extracting the installation resources from the installer archive...  
Configuring the installer for this system's environment...  
strings: '/lib/libc.so.6': No such file  
raw jre dir:  
jre dir:  
LD_LIBRARY_PATH:  
LD_PRELOAD:  
  
Launching installer...
```

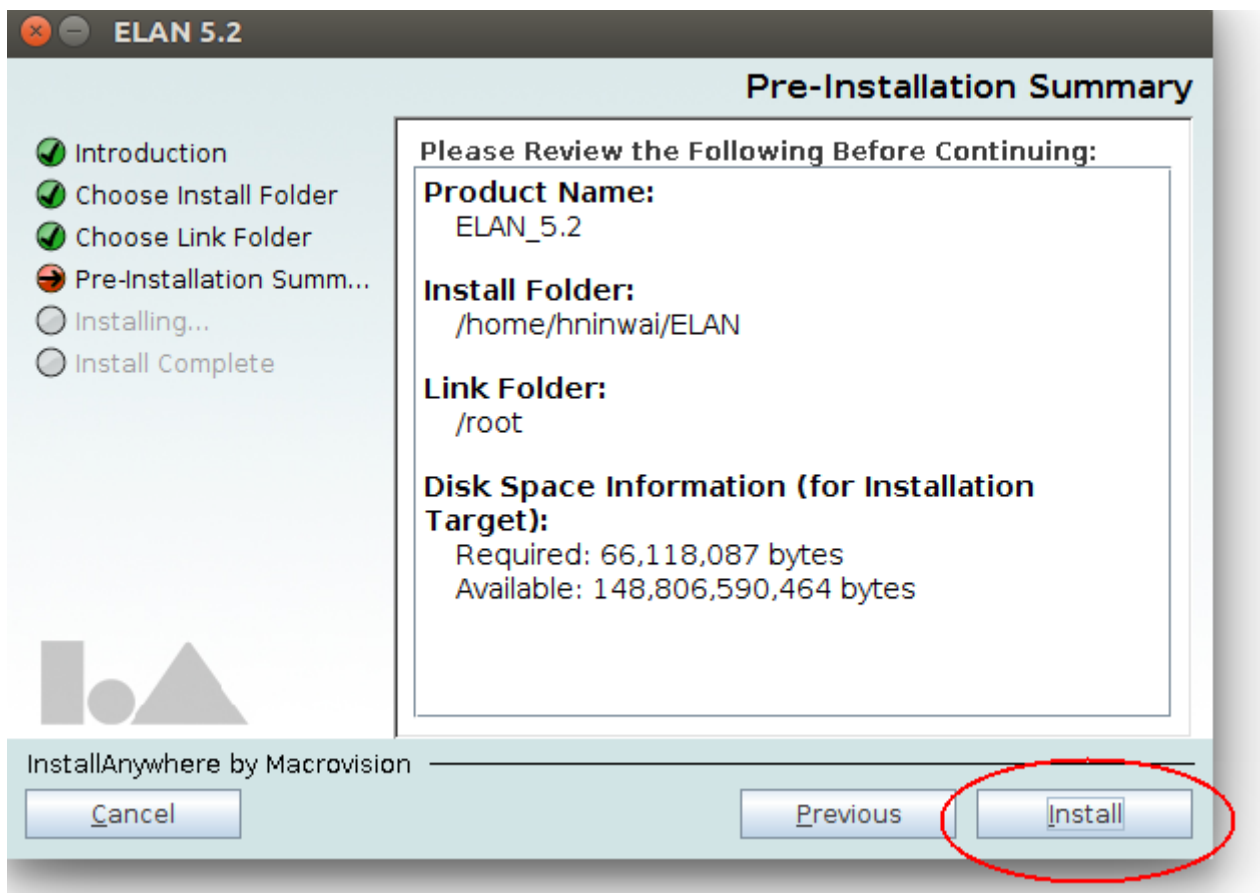

2. after above outputs in your terminal, then you will see...

3. click "Next", and then choose directory where would you like to install..

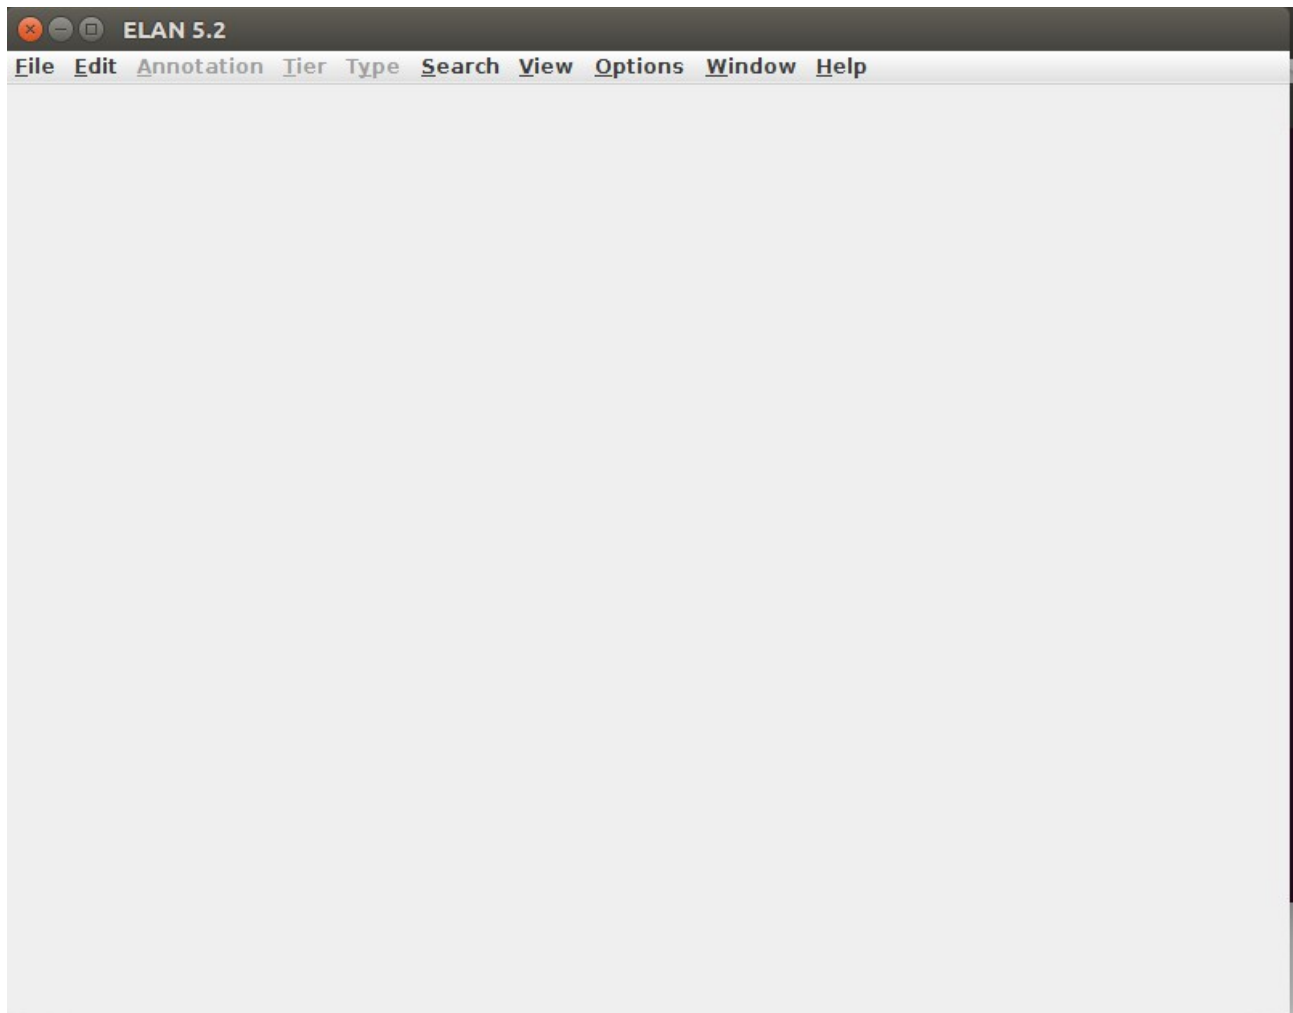

I recommend you to create ELAN folder in your home directory.

## Launching ELAN on your ubuntu notebook

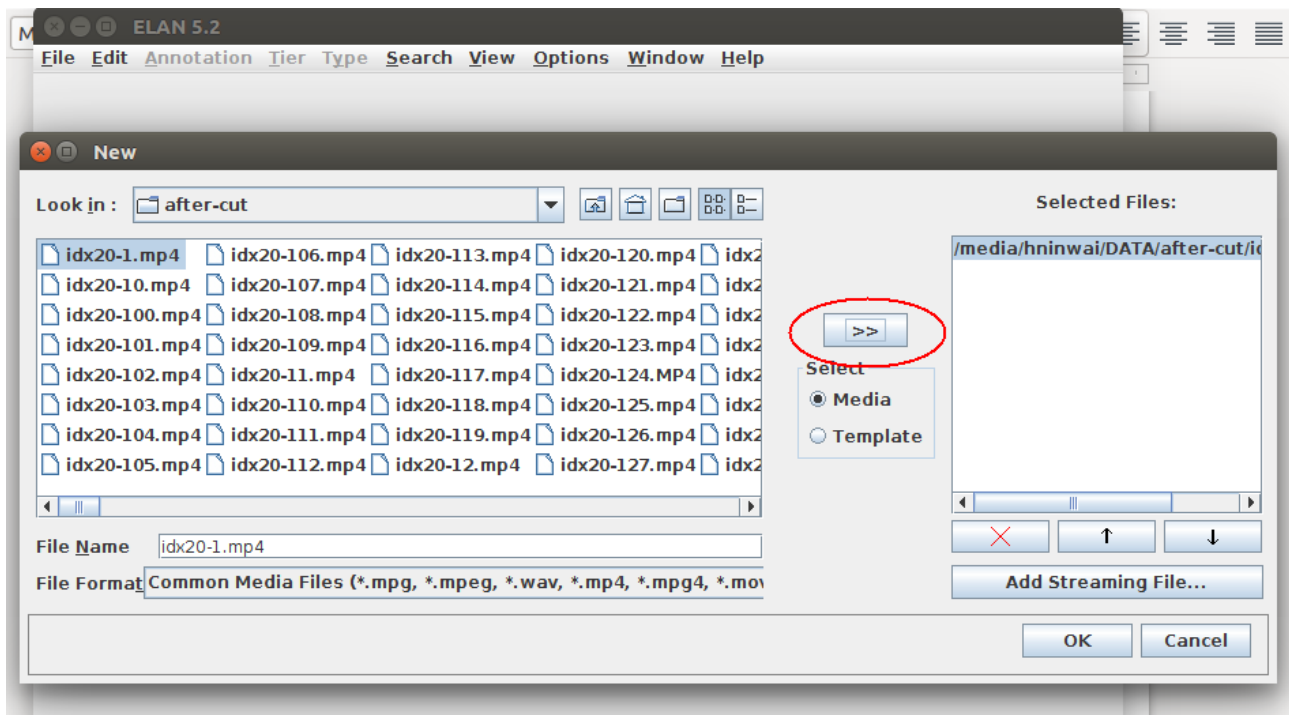

```
hninwai@hninwai: ~/ELAN
hninwai@hninwai:~$ cd ELAN
hninwai@hninwai:~/ELAN$ ./ELAN_5.2
strings: '/lib/libc.so.6': No such file
raw jre dir: /home/hninwai/ELAN/jre/
jre dir: /home/hninwai/ELAN/jre/
LD_LIBRARY_PATH: /home/hninwai/ELAN/jmf__Vlin2.1.1fcs:/home/hninwai/ELAN/jre/lib
/i386:/home/hninwai/ELAN/jre/lib/i386/xawt:/home/hninwai/ELAN/jre/lib/i386/clien
t:
LD_PRELOAD:
```

then, you will see

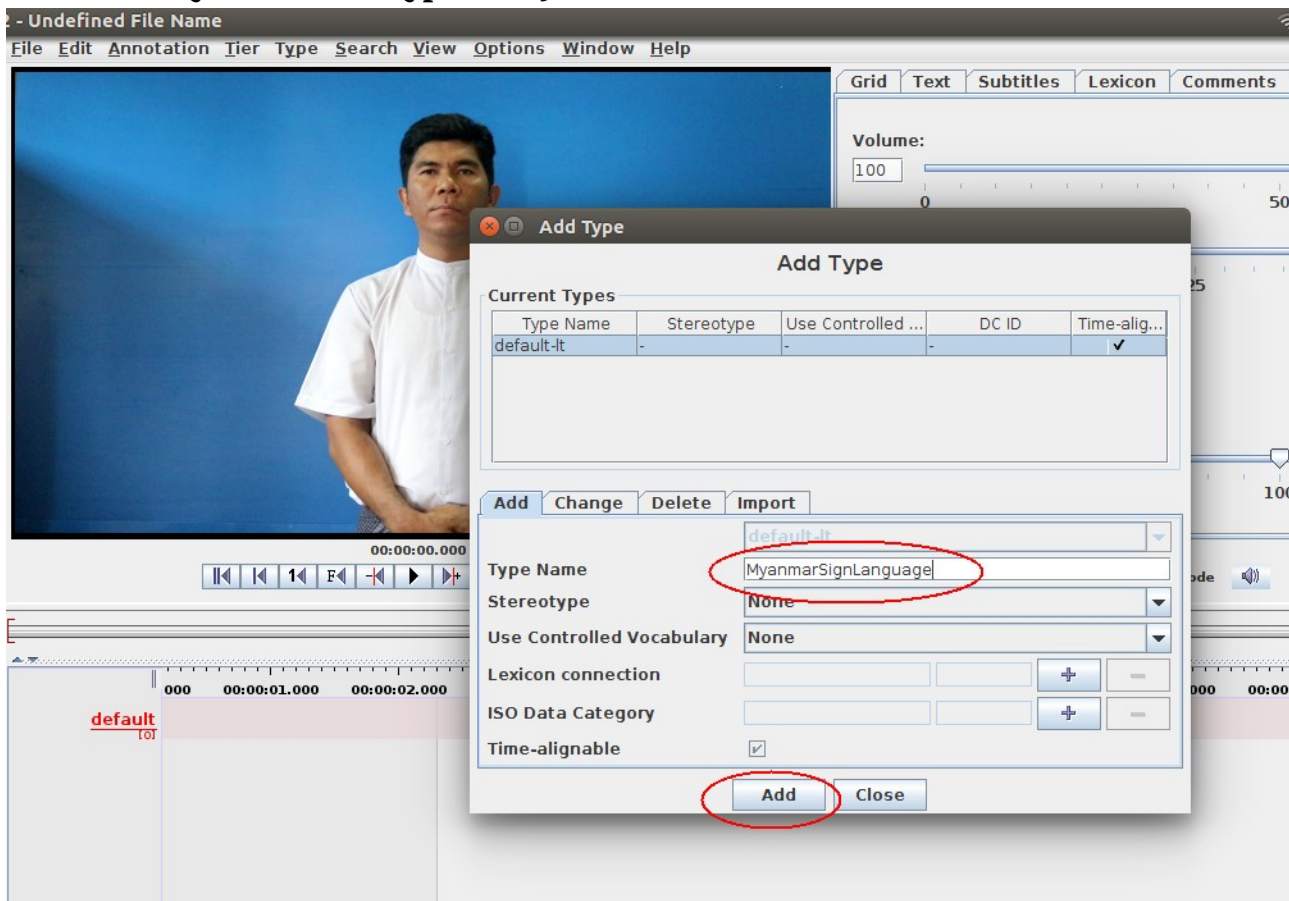

# Video Segmentation and Annotation with ELAN

## 1. File > New

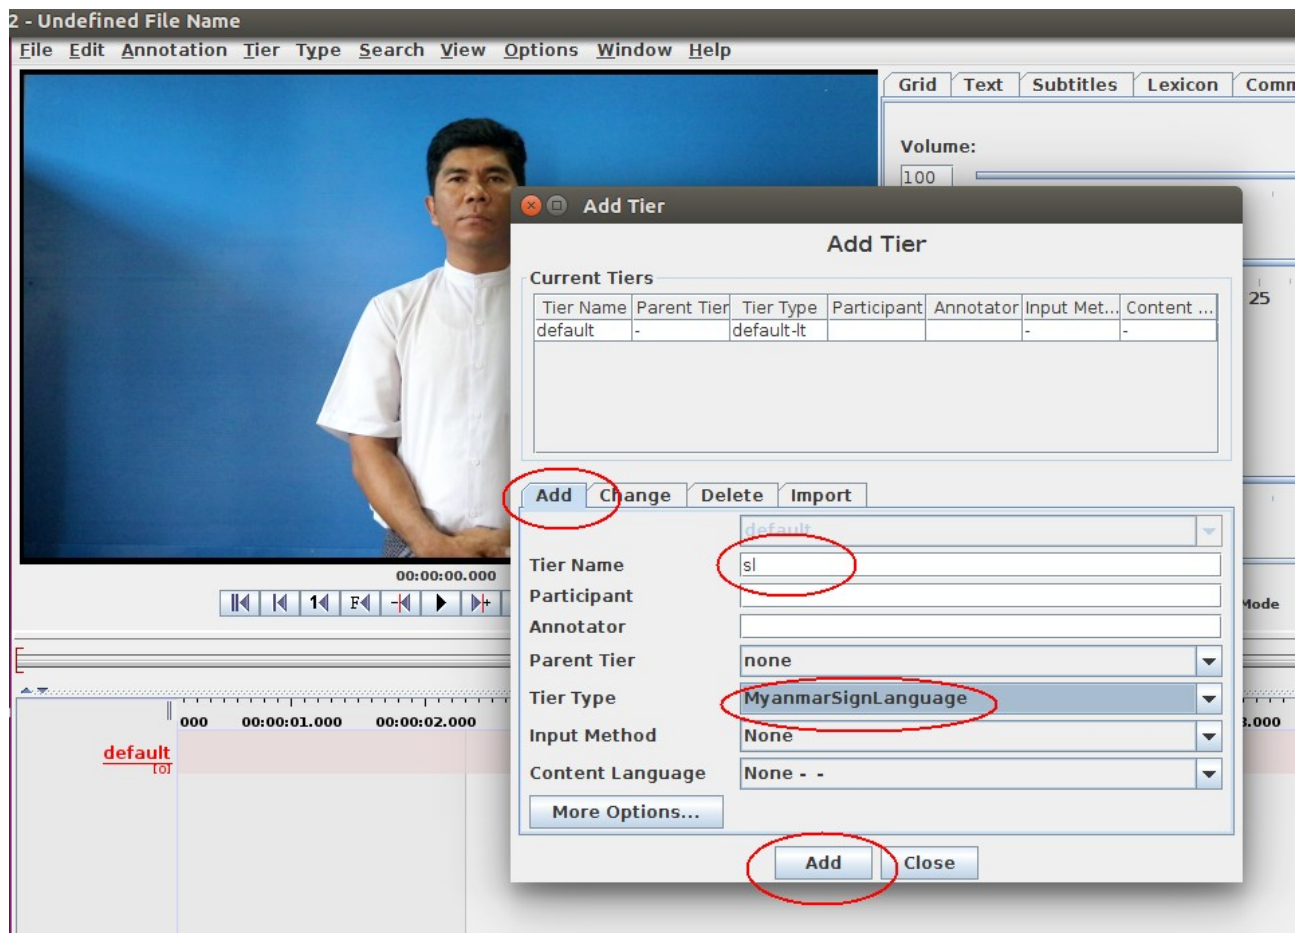

## 2. Type > New Tier Type

You can set your desire Type Name, then click Add

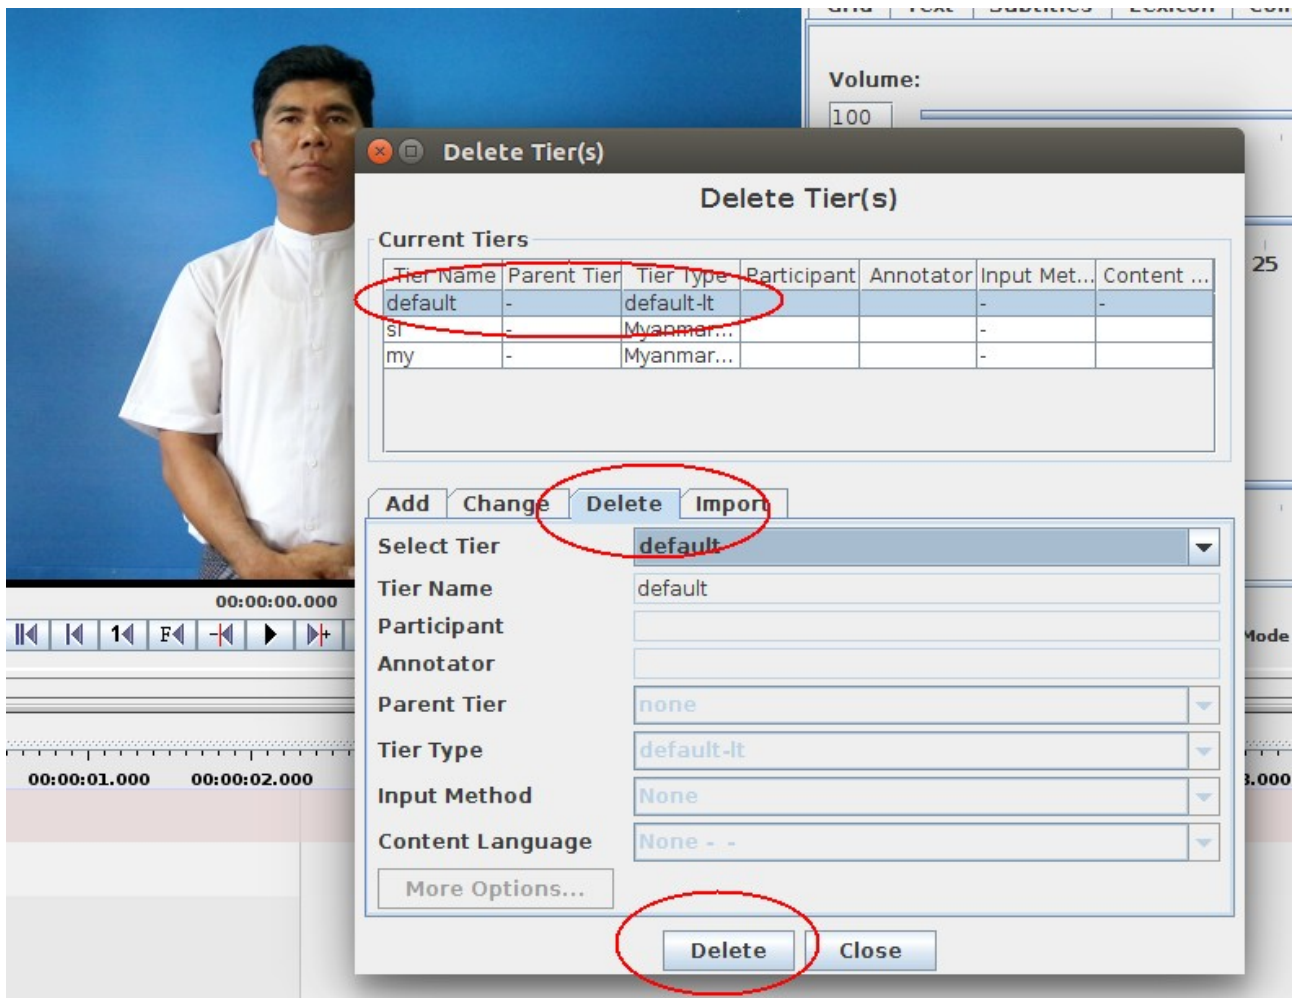

### 3. Tire > Add New Tire

4. Option> Segmentation Mode
5. Option> Annotation Mode
6. Save
